OBJECTIVE To research and make things that ultimately help life of many people.

EDUCATION **GIST**, College Station, Gwangju, Korea

Major in Mechanical Engineering

Mar 2016 ~ Present

EXPERIENCE PROJECT

• **Kickboard carrier**

Made a kickboard carrier at Engineering Design class with teammates.

• **Sound tracking robot**

Made a sound tracking robot at Microprocessor and application class.

Sound tracking robot detects the position(direction and distance) that sound comes from.

Leadership

• **Major representative**

Major representative collects opinions of students(major in Mechanical engineering), send information about major to students.

• **College badminton club leader**

Lead club members to increase their badminton skills and to have exciting time during playing badminton.

Made some matches that my club versus other university club.

Teaching

• **Teach high school student**

Volunteered teaching high school students for a month as a team(8 people)

My role was teaching math.

HOB

- Badminton
- Writing poem
